1. Interpretation

In this By-Law, the English text prevails in the event of any conflict with the Afrikaans text, and, unless the context otherwise indicates –

“**community services**” means services that the municipality has classified as such, in respect of which the tariffs have been calculated with the intention that the costs of the services cannot be recovered in full from public service charges and are of a regulatory nature;

“**Constitution**” means the Constitution of the Republic of South Africa, 1996;

“**Customer Care and Revenue Management By-Law**” means the municipality’s Customer Care and Revenue Management By-Law as required by sections 96(b), 97 and 98 of the Systems Act;

“**designated councillor**” means the member of the municipal council responsible for financial matters in the municipality as contemplated in the Act;

“**economic services**” means services that the municipality has classified as such, in respect of which the tariffs have been calculated with the intention that the total costs of the services are recovered from users;

“**fixed costs**” means costs, which do not vary with increased or decreased consumption or volume produced;

“**flat rates**” means the unit tariffs that do not relate to individual consumers, but are calculated by dividing the total costs by volume used by all the users together, subject to the flat rate;

“**levy**” means any rate, tariff, fee, surcharge or any charge raised by the municipality;

“**municipality**” means the Municipality of Blue Crane, established in terms of Section 12 of the Municipal Structures Act, 117 of 1998, and includes any political structure, political office bearer, councillor, duly authorized agent or any employee acting in connection with this by-law by virtue of a power vested in the municipality and delegated or sub-delegated to such political structure, political office bearer, councillor, agent or employee;

“**Systems Act**” means the Local Government: Municipal Systems Act, 32 of 2000;

“**tariff**” means fees, charges, or any other tariffs levied by the municipality in respect of any function or service provided by the municipality, excluding rates levied by the municipality in terms of the Local Government: Municipal Property Rates Act, 6 of 2004.

“**tariff policy**” means the tariff policy of the Blue Crane Route Municipality approved by the Municipal Council in terms of section 74 of the Municipal Systems Act, 2000 (Act 32 of 2000);

“**the Act**” means the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000);

“**total cost**” means the sum-total of all fixed and variable costs related to a service;

“**trading services**” means services that the municipality has classified as trading services, in respect of which the tariffs have been calculated with the intention that the municipality makes a profit on the delivery of the services;

“**two-part tariffs**” means tariffs that are determined to cover the fixed and variable costs of a service separately, where the fixed costs are calculated by dividing the total amount of fixed costs of the service by the number of customers per category, and the variable costs are calculated by dividing the total amount of variable costs by the volume consumed;

“**units consumed**” means the number of units of a particular service consumed and are measured in terms of the units of measurement contemplated in section 9 of this by-law; and

“**variable costs**” means costs that vary with increased or decreased consumption or volume produced.

2. **Purpose of by-law**

The purpose of this by-law is:

- (1) to give effect the provisions of section 75 of the Act;
- (2) to prescribe procedures for calculating rates, tariffs, fees, surcharges or any charges where the municipality wishes to appoint service providers in terms of section 76(b) of the Act; and
- (3) to serve as guidance to the designated Councillor regarding tariff proposals to be submitted to the municipality annually during the budget process.

3. **Principles and Objectives**

- (1) Section 229(1) of the Constitution authorizes a municipality to impose:
 - (a) rates on property and surcharges on fees for services provided by or on behalf of the municipality; and
 - (b) if authorized by national legislation, other taxes, levies and duties.
- (2) In terms of section 75A of the Systems Act a municipality may:
 - (a) levy and recover fees, charges or tariffs in respect of any function or service of the municipality; and
 - (b) recover collection charges and interest on any outstanding amount.
- (3) In terms of section 74(1) of the Systems Act, a municipal council must adopt and implement a tariff policy on the levying of fees for a municipal service provided by the municipality or by way of service delivery agreements and which complies with the provisions of the Systems Act, the Local Government: Municipal Finance Management Act, 53 of 2003 and any other applicable legislation.
- (4) In terms of section 75(1) of the Systems Act, a municipal council must adopt by-laws to give effect to the implementation and enforcement of its tariff policy.
- (5) In terms of section 75(2) of the Systems Act, by-laws adopted in terms of subsection 75(1) may differentiate between different categories of users, debtors, service providers, services, service standards and geographical areas as long as such differentiation does not amount to unfair discrimination.

4. **Adoption and implementation of tariff policy**

- (1) The municipality shall adopt and implement a tariff policy on the levying of fees for a municipal service provided by the municipality or by way of service delivery agreements which complies with the provisions of the Systems Act, the Local Government: Municipal Finance Management Act, 53 of 2003 and any other applicable legislation.
- (2) The municipality shall not be entitled to impose tariffs other than in terms of a valid tariff policy.

5. **Enforcement of tariff policy**

The municipality's tariff policy shall be enforced through the Customer Care and Revenue Management By-Law and any further enforcement mechanisms stipulated in the municipality's tariff policy.

6. **Classification of services and cost elements**

(1) Classification of services

Provision must be made for the following classification of services:

(a) Trading services

- (i) Electricity
- (ii) Water
- (iii) Market

(b) Economic services

- (i) Refuse removal
- (ii) Sewerage Disposal
- (iii) Recreation Resorts

(c) Community services

(d) Subsidised services

- (i) Libraries
- (ii) Primary Health Care
- (iii) Proclaimed Roads

(2) Cost elements

The following cost elements must be used to calculate the tariffs of the different services:

- (a) Fixed costs, which consist of the capital costs, interest on external loans as well as depreciation, whichever are applicable on the service and any other costs of a permanent nature as determined by the Chief Financial Officer from time to time.
- (b) Variable cost: This includes all other variable costs that have reference to the service.
- (c) Total cost is equal to the fixed cost plus variable cost.

7. Tariff types

(1) In setting service charges the municipality must:

- (a) accurately reflect costs to achieve economic efficiency;
- (b) ensure equity and fairness between different types and categories of consumers;
- (c) utilise appropriate metering and supporting technology; and
- (d) be transparent.

(2) In determining the type of tariff applicable to the type of service the municipality must make use of the following options or a combination thereof:

- (a) Single tariff: This tariff shall consist of a fixed cost per unit consumed. All costs will therefore be recovered through unit charges at the level of breakeven consumption and surpluses on trading services may be allowed.
- (b) Cost related two part tariff: This tariff shall consist of two parts. Management, capital, maintenance and operating costs will be recovered by grouping certain components together e.g. management, capital and maintenance costs may be grouped

together and be recovered by a fixed charge, independent of consumption for all classes of consumers, while the variable costs may be recovered by a unit charge per unit consumed.

- (c) Inclining block tariff: This tariff is based on consumption levels being categorized into blocks, the tariff being determined and increased as consumption levels increase. This tariff will only be used to prohibit the exorbitant use of a commodity. The first step in the tariffs will be calculated at break-even point. Subsequent steps will be calculated to yield profits and to discourage excessive use of the commodity.
- (d) Declining block tariff: This tariff is the opposite of the inclining block tariff and decreases as consumption levels increase. This tariff will only be implemented during the existence of special agreements.
- (e) Availability charges: Payable in respect of availability of access to the municipality's infrastructure. Once the service is used, availability charges as well as the normal tariffs as per respective use of the service are payable.
- (f) Outside Municipal Area: These tariffs shall apply to consumers who are not residing within the municipal boundaries but are making use, on application, of certain services.

8. Categories of users

(1) The tariff structure of the Blue Crane Route Municipality must make provision for different categories of users as determined in the Tariff Policy.

9. Unit of measurement

The following units of measurement must, where possible, be used to determine tariffs:

(1) Water

Water will be measured with a water meter, which meters will be read and consumption will be levied on a monthly basis unless the service is rendered through a pre-payment device:

- (a) Availability charge plus cost per unit charge (kilolitres consumed);
or
- (b) A flat rate will be applied when no metering device is connected to measure consumption.

(2) Electricity

Electricity will be measured with an electricity meter, which meters will be read and consumption will be levied on a monthly basis unless the service is rendered through a pre-payment device:

- (a) Maximum demand plus kWh consumed; or
- (b) Fixed costs plus kWh consumed; or
- (c) Cost per unit KWH consumed.

(3) Refuse removal

The municipality may levy a tariff for the removal of refuse.

(4) Sewerage

The municipality may levy a tariff for the removal and treatment of sewerage based on:

- (a) Percentage of water consumption.
- (b) Percentage of water consumption plus costs for strength of disposal.
- (c) Pail charge: based on the number of properties within those categories of customers and fixed cost associated with the service.
- (d) When the number of properties is not available, a flat charge, based on the average consumption per categories of consumers, will be applicable.

(5) Assessment Rate

- (a) Assessment rate is calculated taking into account the total net expenditure from the other services less the revenue envisaged based on the total rateable valuations. The assessment rate must be calculated in such a manner that the municipality realizes a net surplus when adopting its tariffs.
- (b) Assessment rates are calculated as prescribed by The Local Government: Municipal Property Rates Act. The municipality may in terms of the criteria set out in its rates policy levy different rates for different categories of rateable property. Rates are levied as an annual amount which are payable either on an annual or monthly basis.

(6) Social benefits

- (a) The municipality, in order to measure social benefits enjoyed by the community, has approved of the standards as set out in the tables below to achieve cost recovery and to measure service delivery, where possible.
- (b) Measures indicated should be calculated annually and used as a guideline to ensure meaningful reporting. Actual unit costs must be compared with budgeted costs.

10. Determination, notice of tariffs, fees and levies and objections

The municipality may—

- (1) By resolution, supported by a majority of the members of the municipal council, levy and recover levies, fees, taxes and tariffs, in respect of any function or service of the municipality.
- (2) By resolution, amend or withdraw such determination and determine a date, not earlier than 30 days from date of the resolution, on which such determination, amendment or withdrawal shall come into operation and recover any charges so determined or amended, including interest on any outstanding amount.

(3) After a resolution as contemplated in sub-section (2) has been passed, the municipal manager of the municipality shall forthwith cause to be conspicuously displayed, at a place installed for this purpose at the offices of the municipality, as well as at such other places within the area of jurisdiction of the municipality as may be determined by the municipal manager, a notice stating—

- (a) the general purport of the resolution;
- (b) the date on which the determination or amendment shall come into operation;
- (c) the date on which the notice is first displayed; and
- (d) that any person who desires to object to such determination or amendment shall do so in writing within 14 days after the date on which the notice is first displayed.

(4) Where—

- (a) no objection is lodged within the period referred to in sub-section (3)(d) the determination or amendment shall come into operation as contemplated in sub-section (2);
- (b) an objection is lodged within the period referred to in sub-section (3)(d), the municipality shall consider every objection and may amend or withdraw the determination or amendment and may determine a date other than the date contemplated in sub-section (2) on which the determination or amendment shall come into operation, whereupon sub-section (3)(b) shall with the necessary changes apply.

11. Phasing in of tariffs, fees and levies

(1) The municipality must annually consider the methods by which tariffs, fees and levies will be calculated and by resolution amend its tariff policy.

(2) Where the newly calculated tariffs, fees and levies differ substantially from the current tariffs the municipality may resolve to phase in the differences over a period of time.

12. Repeal

The provisions of any by-laws previously promulgated by the municipality or by any of the disestablished municipalities now incorporated in the municipality are hereby repealed as far as they relate to matters provided for in this by-law.

13. Operative Date

This By-Law shall take effect upon publication in the Provincial Gazette.
